

# THE SQUIRREL CAGE

BY REID BUNDY

**FAR-FLUNG FAME**—Relatives of Herald classified Manager Jay DeLany, enroute to California from New Jersey for a visit, stopped in a small Texas town last week for a little gasoline and a sandwich. Spotting a California car next to the pumps, the California-bound Jerseyites struck up a conversation with its occupants and one thing led to another until the Californian handed them a card and said, "If you're down around my way, stop in for the best hamburgers in the State." The card was Herb Allen's, whose hamburger shop is on Cravens Ave. here. Herb was on his way home from the Detroit convention of the SPEBSQSA (Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America).

**WINDOW DISPLAYS**—If Charlie Reed has people checking his parts warranty, he might check the Cravens Ave. window which reads, "TULL YEAR PARTS WARRANTY." Looks like a professional job, too, according to Walt Hillier, who pointed it out to us.

**NO POWER SHORTAGE**—Service station operator down on Arlington goes out every week or so and mows his lawn—measuring a scant 3 feet by 4 feet, with a power mower. It's the only grass on the place. We watched him a couple of times and had a couple of other astonished citizens drew our attention to it. A little investigation showed that he has power mowers at the station to rent. Simple enough, eh?

**NOT STRICTLY LOCAL**—Southern California citizens who complain that they cannot see the local mountains due to smog may derive some comfort from the fact that the Egyptians are concerned that intense air pollution may soon cut off their view of the pyramids, according to Paul Grimes, of the County Air Pollution Control District.

**DOMESTIC VIEWS**—A trade magazine recently coming our way quoted a famous wit as saying: "Being married to one woman too many doesn't always involve bigamy." The same mag says a wife usually leaves home to go buy-buy.

**CAUGHT FLAT-FOOTED**—A recent survey among New York City's thousands of policemen showed that more than 90 percent of them had absolutely no symptoms of flat feet. Or so I read in a big city paper.

**ANOTHER SLOW POKE**—The Los Angeles County Medical Association can move over into the "Behind-the-scenes" rank with a brochure they put in the mails Friday. The little folder describing emergency medical care tells people in the Torrance, Lomita, and Gardena area to

time we saw a banker on one of the Torrance streets with a loud Hawaiian sport shirt and sharkskin slacks on. Bankers just don't dress like they used to.

## Aboard USS Dixie

Aboard the destroyer tender USS Dixie with the UN Blockading and Escort Force is Clarence Stegall, metalsmith third class, USN, son of Mrs. Olive V. Stegall, of 4922 Hickman Dr., Stegall, who enlisted in the Navy on June 28, 1950, reported aboard the Dixie in February of this year, from the destroyer tender USS Prairie.

## 10 More Unable To Answer Call Of Open Road

Seemingly heedless of the fact that summer is a swell time for motor travel, ten local drivers got themselves in dutch with the Department of Motor Vehicles during the period June 23, 26, and have had their driver's licenses suspended or revoked. Unlucky ones are Herschel Boynton, 2916 Dalemead; Marilyn Brogden, 20718 New Hampshire Ave.; Herbert Coulter, 2500 101 Hwy., Lomita, and Sal Snyder, 22032 Elgar St., all suspended following an accident for failure to meet the requirements

of the financial responsibility law; Robert Hendricks, 18329 Regina Ave.; Patrick Laine, 116 E. 223rd St., and Danny Richmond, 2337 W. 249th St., Lomita, all revoked because of vehicle theft charge. Others were Richard Conaway, 1604 W. 218th St., court suspension of six months; Paul Huth, 1800 Torrance Blvd., 90-day suspension on a first drunk driving offense; and Joseph LaPorte, 1562 W. 213th St., revoked because of bad driving record.

Convicted of a traffic violation but with no suspension recommended by the court was Robert McNeal, 25900 Walnut St., Lomita. Those who had their licenses reinstated during this period were Roy Huhta, 25326 Felton Ave., Lomita; Herbert Bunn, 2462 Sonoma Ave.; Albert Kiser, 4473 Del Amo Blvd.; John Micano-vich, 215 W. Carson St.; and Wendelin Seiberlek, 607 Pine Dr.

**AREAS COMPARED**—The island of Madagascar is almost as great as the area of the State of Texas.

**CENSUS COUNT**—Australia's population, determined by a census in 1949, was 7,912,000.

## Dr. E. M. Broen, M.D.

wishes to announce the removal of his office for the practice of Obstetrics and Gynecology to . . .

### Reflections

By J. HUGH SHERFEY, JR.

#### SWIMMING POOL IS OPEN

When I was a boy our swimming pool was a deep hole below a miniature falls; the banks were perpendicular, greasy-slick clay mud, flash floods rolled jagged boulders into it, the water was frigidly cold. We'd run from school, or field, shed our clothes, dive in; the trick was avoiding the boulders and getting up that slick bank before we froze. You, how lucky you are!

You have a pool with sparkling clean water, know the depth, certain there are no boulders on the bottom, climb a ladder to lie on clean cement. You're under constant scrutiny of a Life Guard who will teach you to swim correctly. You have fun, without rowdyism. How much more could you ask!

Appreciate our pool. It is as clean as your bath tub; the water is tested frequently and treated constantly. Children, and adults, with communicable diseases are barred. Our swimming pool is ringed with safety factors. Use it. Build strong, robust bodies.
